

DOD STANDARD MANDATORY NOTICE AND CONSENT

By signing this document, you acknowledge and consent that when you access Department of Defense (DOD) Information systems:

1. You are accessing a U.S. Government (USG) information system (IS) (which includes any device attached to this information system) that is provided for U.S. Government authorized use only.
2. You consent to the following conditions:
 - a. The U.S. Government routinely intercepts and monitors communications on this information system for purposes including, but not limited to, penetration testing, communications security (COMSEC) monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.
 - b. At any time, the U.S. Government may inspect and seize data stored on this information system.
 - c. Communications using, or data stored on, this information system are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any U.S. Government-authorized purpose.
 - d. This information system includes security measures (e.g., authentication and access controls) to protect U.S. Government interests not for your personal benefit or privacy.
 - e. Notwithstanding the above, using an information system does not constitute consent to personnel misconduct, law enforcement, counterintelligence investigative searching or monitoring of the content of privileged communications or data (including work product) that are related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Under these circumstances, such communications and work product are private and confidential, as further explained below:
 - (1) Nothing in this User Agreement shall be interpreted to limit the user's consent to, or in any other way restrict or affect, any U.S. Government actions for purposes of network administration, operation, protection, or defense or for communications security. This includes all communications and data on an information systems, regardless of any applicable privilege or confidentiality.
 - (2) The user consents to interception/capture and seizure of ALL communications and data for any authorized purpose (including personnel misconduct, law enforcement, or counterintelligence investigation). However, consent to interception/capture or seizure of communications and data is not consent to the use of privileged communications or data for personnel misconduct, law enforcement, counterintelligence investigation against any party and does not negate any applicable privilege or confidentiality that otherwise applies.
 - (3) Whether any particular communication or data qualifies for the protection of a privilege, or is covered by a duty of confidentiality, is determined in accordance with established legal standards and DOD policy. Users are strongly encouraged to seek personal legal counsel on such matters prior to using an information system if the user intends to rely on the protections of a privilege or confidentiality.

(4) Users should take reasonable steps to identify such communications or data that the user asserts are protected by any such privilege or confidentiality. However, the user's identification or assertion of a privilege or confidentiality is not sufficient to create such protection where none exists under established legal standards and DOD policy.

(5) A user's failure to take reasonable steps to identify such communications or data is privileged or confidential does not waive the privilege or confidentiality if such protections otherwise exist under established legal standards and DOD policy. However, in such cases the U.S. Government is authorized to take reasonable actions to identify such communication or data as being subject to a privilege or confidentiality, and such actions do not negate any applicable privilege or confidentiality.

(6) These conditions preserve the confidentiality of the communication or data, and the legal protections regarding the use and disclosure of privileged information, and thus such communications and data are private and confidential. Further, the U.S. Government shall take all reasonable measures to protect the content of captured/seized privileged communications and data to ensure they are appropriately protected.

f. In cases when the user has consented to content searching or monitoring of communications or data for personnel misconduct, law enforcement, or counterintelligence investigative searching, (i.e., for all communications and data other than privileged communications or data that are related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants), the U.S. Government may, solely at its discretion and in accordance with DOD policy, elect to apply a privilege or other restriction on the U.S. Government's otherwise-authorized use or disclosure of such information.

g. All of the above conditions apply regardless of whether the access or use of an information system includes the display of a Notice and Consent Banner ("banner"). When a banner is used, the banner functions to remind the user of the conditions that are set forth in this User Agreement, regardless of whether the banner describes these conditions in full detail or provide a summary of such conditions, and regardless of whether the banner expressly references this User Agreement.

Army Standard Acceptable Use Policy (AUP)

1. Understanding. I understand that I have the primary responsibility to safeguard the Information contained on the classified and/or unclassified network from unauthorized or inadvertent modification, disclosure, destruction, denial of service, and use.

2. Access. Access to this organization's network(s) is for official use and authorized purposes and as set forth in DoD 5500.7-R, "Joint Ethics Regulation" or as further limited by this policy.

3. Revocability. Access to Army resources is a revocable privilege and is subject to content monitoring and security testing.

4. Classified information processing. This information system is a US-only system and approved to process classified collateral information.

a. The classified network provides communication to external DoD organizations using the SIPRNET. Primarily this is done via electronic mail and internet networking protocols such as web, ftp, and telnet.

b. The classified network is authorized for SECRET or lower-level processing in accordance with accreditation package held at **this organization**.

c. The classification boundary between classified network and unclassified network requires vigilance and attention by all users. The classified network is also a US-only system and not accredited for transmission of NATO material.

d. The ultimate responsibility for ensuring the protection of information lies with the user. The release of TOP SECRET information through the classified network is a security violation and will be investigated and handled as a security violation or as a criminal offense.

5. Unclassified information processing. The Unclassified Network is the primary unclassified automated administration tool for **this organization**. The unclassified network is a US-only system.

a. The unclassified network provides unclassified communication to external DoD and other United States Government organizations. Primarily this is done via electronic mail and internet networking protocols such as web, ftp, telnet.

b. The unclassified network is approved to process UNCLASSIFIED, SENSITIVE information in accordance with local regulations dealing with automated information system security management programs.

c. The unclassified network and the Internet, as viewed by this organization are synonymous. Email and attachments are vulnerable to interception as they traverse the NIPRNET and Internet.

6. Minimum security rules and requirements. As a Classified Network and/or Unclassified system user, the following minimum security rules and requirements apply:

a. Personnel are not permitted access to the Classified Network and the Unclassified Network unless in complete compliance with this organization's personnel security requirement for operating in a TOP SECRET system-high environment.

b. I have completed the user security awareness training module on the Fort Gordon website. I will participate in all training program as required (inclusive of threat identification, physical security, acceptable user policies, malicious content and logic identification, and nonstandard threats such as social engineering) before receiving system access.

c. I will generate, store, and protect passwords or pass-phrases. Passwords will consist of at least 10 characters, with 2 each of uppercase and lowercase letters, numbers, and special characters. I am the only authorized user of this account. (I will not use user ID, common names, birthdays, phone numbers, military acronyms, call signs, or dictionary words or passwords or pass-phrases).

d. I will use only authorized hardware and software. I will not install or use any personally owned hardware, software, shareware, or public domain software.

e. I will use virus-checking procedures before uploading or accessing information from any system, diskette, attachment, or compact disk.

f. I will not attempt to access or process data exceeding the authorized IS classification level.

g. I will not alter, change, configure, or use operating systems or programs, except as specifically authorized.

h. I will not introduce executable code (such as, but not limited to, .exe, .com, .vbs, or .bat files) without authorization, nor will I write malicious code.

i. I will safeguard and mark with the appropriate classification level all information created, copied, stored, or disseminated from the IS and will not disseminate it to anyone without a specific need to know.

j. I will not utilize Army- or DoD-provided ISs for commercial financial gain or illegal activities.

k. Maintenance will be performed by the System Administrator (SA) only.

l. I will use screen locks and log off the workstation when departing the area.

m. I will immediately report any suspicious output, files, shortcuts, or system problems to the Organization's System Administrator and/or Information Assurance Support Officer and cease all activities on the system.

n. I will address and questions regarding policy, responsibilities, and duties to the organization's System Administrator and/or Information Assurance Support Officer.

o. I understand that each IS is the property of the Army and is provided to me for official and authorized uses. I further understand that each IS is subject to monitoring for security purposes and to ensure that use is authorized. I understand that I do not have a recognized expectation of privacy in official data on the IS and may have only a limited expectation of privacy in personal data on the IS. I realize that I should not store data on the IS that I do not want others to see.

p. I understand that monitoring Classified Network and Unclassified Network will be conducted for various purposes and information captured during monitoring may be used for administrative or disciplinary actions or for criminal prosecution. I understand that the following activities define unacceptable uses of an Army IS:

- to show what is not acceptable use
- to show what is acceptable during duty/non-duty hours
- to show what is deemed proprietary or not releasable (key word or data identification)
- to show what is deemed unethical (e.g., spam, profanity, sexual content, gaming)
- to show unauthorized sites (e.g., pornography, streaming video, E-Bay)
- to show unauthorized services (e.g., peer-to-peer, distributed computing)
- to define proper email use and restrictions (e.g., mass mailing, hoaxes, auto forwarding)
- to explain expected results of policy violations (1st, 2nd, 3rd, etc)

(Note: Activity in any criteria can lead to criminal offenses.)

q. The authority for soliciting a social security number (SSN) is EO 939. The information below will be used to identify you and may be disclosed to law enforcement authorities for investigating or prosecuting violations. Disclosure of information is voluntary; however, failure to disclose information could result in denial of access to the organization's information systems.

7. Acknowledgement. I have read the above requirements regarding use of this organization's access systems. I understand my responsibilities regarding these systems and the information contained in them.
